

## DISTRICT ATTORNEY ON MR. FISH'S DEATH

No Romance and No  
Woman in the Case,  
Jerome Says.

### MERELY A SALOON BRAWL

Banker Called Sharkey a Vile Name  
and It Was Resented With a Blow.  
Women Did Not Figure in the Mis-  
erable Affair.

NEW YORK, Sept. 13.—District At-  
torney Jerome, who has made an in-  
vestigation of the circumstances sur-  
rounding the death of Nicholas Fish,  
the millionaire banker, who was killed on  
Tuesday morning in a cafe, today issued  
a statement giving the lines along which  
the prosecution of the case will be con-  
ducted.

"According to the district attorney the  
affair was nothing but a saloon row,"  
he said.

"I want it understood that there was  
no romance and no woman back of the  
case. It was just a common, low, sal-  
oon brawl, in which the passions of two  
men, who were strangers to each other  
and were both under the influence of  
liquor, became inflamed; that Fish  
called Sharkey a vile name, which Shar-  
key resented by punching the banker.  
He hit him too hard and killed him.  
That's all there is to it.

"If anybody called me such a name I  
would have hit out too. Fish did not  
know the women, and had never seen  
them before. He went into the saloon  
because he was drunk, and naturally  
asked them to drink, as a man under  
the influence of liquor would.

"Then Sharkey came in, and there was  
an altercation over the cashing of a  
check. The temper of both men got the  
better of them. The women don't figure  
in this miserable affair at all. It was  
simply a drunken row, a thing occurring  
every day.

"Of course, Sharkey will have to suffer  
the consequences."

### NEW PALMS FOR POST OFFICE ROOF GARDEN

Many Dead Trees and Plants  
Replaced.

Difficulty in Keeping Them in Good  
Condition Owing to City Dust and  
the Glass Roof.

Several hours after midnight this  
morning a number of employees of the  
Botanical Gardens, assisted by a dozen  
conditioned hands, and supervised by Dr.  
Marshall of the Postoffice Department,  
finished the task of replacing the dead  
and other plants on the "palm garden"  
on the roof of the City Postoffice build-  
ing with new and healthy floral speci-  
mens.

One of the large palm trees which  
died during the year, it is alleged,  
through neglect, was valued at \$2,000.  
The plant, also a palm, taking the place  
of the old one and put in its tub yes-  
terday, is forty years old and is nearly  
forty feet in height.

The plants were hoisted to the second  
floor of the building by being fastened  
to the bottom of the freight elevator,  
and it was quite a piece of work re-  
quiring good management and care to  
take the old plants and trees from their  
positions on the glass roof and put the  
new ones in their respective places. By  
means of block and tackle attached to  
the iron rafters and cross beams of the  
Postoffice roof the trees were lifted and  
lowered where they were desired.

Speaking of the operation, one of the  
men of the Botanical Gardens said this  
morning: "These plants need moisture  
and for this reason they should be  
sprayed at least three times a week. If  
this is not done they will gradually die.  
The daily sweeping of the offices in the  
Postoffice building deposits inches of  
dust on the leaves of the palms and  
other plants, which should not be al-  
lowed to remain on the foliage, because  
it will do more harm to the plants than  
anything else.

"There is one drawback in watering  
the plants and taking proper care of  
them and that is the glass roof of the  
City Postoffice, which is level and does  
not give the water a flow off. Whenever  
we wash or water the plants we have to  
be very careful not to throw any water  
over the roof for fear it will go through  
and create disturbances in the City Post-  
office below. To prevent this we cover  
the roof with canvas sheeting. It should,  
therefore, not be surprising to see the  
plants suffer and die when it is consid-  
ered how we are handicapped from  
attending to their real needs and wants."

### STRENGTH AND FOOD.

The First Comes From the Last.

When proper food is used in sickness  
the recovery is much more rapid and  
sure, and a food that is good and easy  
of digestion is right for anyone.

Mrs. H. L. Gordon, of Corry, Pa., was  
taken down with nervous prostration  
and heart trouble about a year ago and  
for weeks it seemed that she could not  
live.

She says: "The medicine I took for my  
nerves and heart injured my stomach  
and I grew steadily worse until I could  
retain nothing. For weeks I was kept  
alive on one teaspoonful of beef tea and  
one of lime water every hour, and after  
while I could not even continue that. I  
grew weaker and weaker and finally  
was compelled to use sweet oil to feed  
the bowels, until one day my daughter  
suggested that I try Grape-Nuts dry, as  
I could not retain anything more. After  
the third day I began to steadily  
mend, and for weeks and months I ate  
them three times a day.

"When I began eating Grape-Nuts I  
weighed 75 pounds; now I weigh 110 and  
am doing my housework and eating near-  
ly any and everything. I tell everyone  
I hear complain of poor stomach to try  
Grape-Nuts, and many have on the  
"strength of my cure."

### SERVICES TO MEMORY OF DECEASED MASON

Washington Centennial Lodge, No. 14  
Listens to Eulogies.

Washington Centennial Lodge, No. 14,  
F. A. A. M., held memorial services last  
night at the Masonic Temple, corner of  
Ninth and F Streets northwest, in honor  
of deceased members of the craft. Mr.  
John Speed Smith, master, presided.

The deceased members in whose mem-  
ory the services were held were: John  
Kraft, Charles W. Morris, Albion M. Long,  
Robert H. Gummel, George M. Burt,  
Burton and Harrison P. Carter. Prayer  
was delivered by Rev. J. J. Muir, pastor  
of Temple Baptist Church, followed by  
eulogies on John Kraft by E. C. Elmire,  
P. M., on Charles W. Morris, by Ernest  
H. Daniels, P. M., on Albion M. Long,  
by J. H. Davis, P. M., on Robert H.  
Gummel, by Edwin T. Fenwick; on  
George M. Burt, by Evander French, and  
on Harrison P. Carter, by Willis M.  
Barnes.

Rev. Dr. Muir closed the ceremonies  
with an address. The memorial com-  
mittee in charge of the services was  
composed of J. B. Ward, A. G. Donald-  
son, W. F. Hall, R. S. Coleman, and A.  
L. Jones.

### SCHOOL TEACHERS MUST PLEDGE NOT TO MARRY

New York Town Board Has  
Novel Experience.

Difficult to Keep Instructors, as They  
All Seem Bent on Matri-  
mony.

NEW YORK, Sept. 13.—School teach-  
ers of Queensborough are marrying off  
so fast that unless the board of educa-  
tion of that borough takes steps to stop  
the stampede or finds some means of  
replacing the supply a famine in teachers  
will be the result.

Reports say there are a dozen wed-  
dings in prospect now and both the  
bachelor and married members of the  
board of education are wondering where  
it will end. There are ninety-seven  
schools in that borough.

Just at present there is not a substitute  
teacher on the list, although forty  
are wanted. Then, to make matters  
worse, thirty-one additional teachers are  
wanted with only thirty-seven on the  
eligible list and a dozen marriages just  
in sight. New teachers applying for  
positions in that borough hereafter will  
have to pledge themselves not to get  
married in less than a year.

### THE KAISER REQUESTED CONFIDENTIAL VIEWS

General Corbin and Lord Roberts Asked  
to Comment on German Military  
Maneuvers.

BERLIN, Sept. 13.—It is stated that  
before Lord Roberts, of the British  
army, and General Corbin, of the Ameri-  
can, left Germany, the Kaiser requested  
them to send him written confidential  
comments on the recent maneuvers at  
which they were the Kaiser's guests.  
The Kaiser's desire will probably be  
complied with.

### INDIANA MINES PUT UP PRICE OF COAL

Operators Say Inadequate Shipping  
Facilities Force Them to This.

TERRE HAUTE, Ind., Sept. 13.—The  
Indiana operators have advanced the  
price of coal at the mines from 25 cents  
to 60 cents on a ton. The explanation is  
that there is a demand for the coal,  
but owing to the failure of shipping fa-  
cilities they are deprived of trade equal  
to one-third the capacity. Therefore  
they feel justified in making the profit  
of that one-third by increasing the price  
by two-thirds.

The advance is 25 cents a ton on block  
coal and 50 cents on bituminous, which  
brings block to \$2.25, and bituminous  
to various prices around \$2—the product  
not being of uniform quality throughout  
the State. The operators expect to see  
coal selling at an advance of \$1 more  
than today's advance before Christmas.  
The shortage in shipping facilities is  
due to both a shortage of cars and lo-  
comotives. There are more cars than a  
few months ago, owing to the per diem  
rule which prevents holding of cars for  
storage purposes.

"There is one drawback in watering  
the plants and taking proper care of  
them and that is the glass roof of the  
City Postoffice, which is level and does  
not give the water a flow off. Whenever  
we wash or water the plants we have to  
be very careful not to throw any water  
over the roof for fear it will go through  
and create disturbances in the City Post-  
office below. To prevent this we cover  
the roof with canvas sheeting. It should,  
therefore, not be surprising to see the  
plants suffer and die when it is consid-  
ered how we are handicapped from  
attending to their real needs and wants."

### PREFERRED DEATH TO SERVING AS JUROR

Ranchman Blew His Brains Out Rather  
Than Remain in Court.

COLORADO SPRINGS, Col., Sept. 13.—  
J. W. Allhands, aged fifty-eight years, a  
ranchman, blew out his brains here yes-  
terday.

Allhands had served Monday and Tues-  
day as a juror in the El Paso county  
court, under protest. He begged for re-  
lease, and when refused he killed him-  
self rather than serve.

Fire in Q Street Residence.  
Shortly after 9 o'clock last night an  
alarm was turned in from oca 234 by an  
unknown persons for a fire in the second  
story front room of 403 Q Street north-  
west, occupied by Fred Jones. The fire  
was caused by the upsetting of a lamp.  
The second floor of the house was badly  
damaged.

Susie Blagdon colored was sick in the  
house and had to be removed by friends  
to another residence on a stretcher.

### The Proper Treatment for a Sprained Ankle.

As a rule a man will feel well satisfied if  
he can hobble around on crutches two or three  
weeks after spraining his ankle, and it is  
usually two or three months before he has  
fully recovered. This is an unnecessary loss  
of time, for in many cases in which Cham-  
berlain's Pain Balm has been promptly and freely  
applied, a complete cure has been effected in  
less than one week's time, and in some cases  
within three days. For sale by Henry Evans  
Wholesale and Retail, 222 F St. n.w., and all  
druggists.

### POLICE GET NO CLUE OF MRS. OSGOOD'S BURGLAR

Disappointed Over Her Fail-  
ure to Summon Aid

Belief That He Is Responsible for Other  
Attempted Robberies—May Be G.  
A. R. Crook.

The police are making a determined  
effort to capture the well-dressed young  
man who yesterday afternoon made sev-  
eral attempts at robbery in the north-  
west section of the city, and who was  
caught by Mrs. Osgood, of 1402 Four-  
teenth Street northwest, in her house  
after he had collected considerable  
property belonging to her, and forced  
by her to give up his booty before being  
released.

The police are exceedingly chagrined  
because Mrs. Osgood did not summon a  
police man and have the man locked up.  
In discussing the affair with a Times  
reporter this morning Captain Board-  
man said:

"I did not hear of Mrs. Osgood's ex-  
perience until I read it in The Times  
this morning. I have not received any  
report regarding the affair but have sev-  
eral men working on the case. We have  
had several complaints regarding at-  
tempted robberies in the vicinity and I  
am positive that he is responsible for a  
number of them."

Now that the G. A. R. encampment is  
drawing near the Detective Bureau is ex-  
ceedingly active, as the local sleuths ex-  
pect that a large number of the crooked  
gentry will manage to sneak into the  
city, despite precautions against them.

### FAVORS LIMITED TARIFF REVISION

The Sixth Wisconsin District Goes on  
Record.

FOND DU LAC, Wis., Sept. 13.—The  
Republican convention in the Sixth Con-  
gressional district yesterday went on  
record as favoring a limited form of  
tariff revision by the adoption of the  
following resolution:

"We favor such changes in the tariff  
from time to time as become advisable  
through the progress of our industries  
and their changing relations to the com-  
merce of the world. We endorse the  
policy of reciprocity as the natural com-  
plement of protection and urge its de-  
velopment; as necessary to the realiza-  
tion of our highest commercial possi-  
bilities."

The convention nominated Secretary  
of State W. H. Froelich for Congress,  
and endorsed the record of Senator  
Spooner.

### INSANE SOLDIER'S VICTIMS IMPROVING

Judge Coulter and Captain  
Platt Badly Wounded.

### ASSAILANT KILLS HIMSELF

David Hayden, Dishonorably Discharged  
From the Navy and Refused Pension,  
Does Murders Work With Pistol  
and Shotgun in a Connecticut Village.

NEW LONDON, Conn., Sept. 13.—Pro-  
bate Judge Thomas G. Coulter and Cap-  
tain Henry O. Platt, who were brought to  
the Memorial Hospital here from Essex,  
are reported improving today. Both have  
bullet wounds in the breast, inflicted by  
David Hayden, an insane naval veter-  
an, who killed himself after shooting  
down the two most prominent men in  
Essex.

Judge Coulter slept throughout the  
night, and was in fair shape this morn-  
ing.

Captain Platt was restless throughout  
the night, but the physicians do not an-  
ticipate that his wound will prove fatal.  
Dr. Schaeffer, of Essex, and Dr.  
Phelps, of the Memorial Hospital, probed  
for the bullets, but were unable to re-  
move them. Judge Coulter has a bullet  
in his chest, which entered below the  
heart.

Captain Platt has five buckshot  
wounds in the breast and one in the  
thigh. The charge was fired at such  
close range that the shot penetrated be-  
yond the reach of the probe.

Hayden was dishonorably discharged  
from the navy in 1861 and had tried re-  
peatedly to get a pension. He had been  
mentally unbalanced for years, and used  
to blame any lawyer who refused to  
take up his case. He was never consid-  
ered dangerous, however. Yesterday he  
approached Judge Coulter on the main  
street in Essex and asked him if he had  
a grudge against him.

The judge laughingly replied in the  
negative. Suddenly Hayden drew a re-  
volver and fired at the judge. He ran  
down the street toward his home, fol-  
lowed by a crowd of citizens. Captain  
Platt, who is first lieutenant of the vil-  
lage, led the pursuit. Hayden gained his  
house and came out with a shotgun. As  
Captain Platt entered the yard Hayden  
fired at him.

The crowd retired. Then Hayden went  
indoors, placed the muzzle of the shot-  
gun to his head, and pulled the trigger  
with his foot. He blew the top of his  
head off.

### COMMISSIONER WRIGHT PRESCRIBES RELIGION

Says It Will Solve Problem  
of Capital and Labor.

Delivers an Address at the West Vir-  
ginia University, and Suggests  
Remedies to Stop Trouble.

MORGANTOWN, W. Va., Sept. 13.—At  
West Virginia University last evening  
the session was opened by an address by  
Hon. Carroll D. Wright, United States  
Commissioner of Labor, on the question,  
"Is There Any Solution to the Labor  
Problem?" Among other things Mr.  
Wright said:

"Many remedies have been suggested  
to soften the struggle going on be-  
tween labor on the one side and capital  
on the other. First among them is leg-  
islation. Now, if any effort has proved  
futile it is the attempt to secure good,  
pure, individual character by statutory  
enactment. You may read the history  
of the world in its statutes, yet statutes  
are the followers, not the leaders, of  
the popular voice. Laws are but the  
crystallization of public sentiment, and  
as such they may exert an educational  
influence, but they can never serve as a  
solution of social and economical prob-  
lems."

"Compulsory inspection of factories  
has been suggested. This is a mere po-  
lice regulation, and we have had it for  
years, yet the problem still exists. We  
have laws fixing liability for accidents  
to employees, but they have not relieved  
the strain. Laws for the betterment of  
sanitary conditions have brought about  
worthy reforms, but they have not  
touched the heart of the problem. Less-  
ening the hours of labor has proved  
beneficial, but to a very limited extent.  
"As for arbitration, while I am favor-  
able to the system of adjusting differ-  
ences between employers and employ-  
ers and employed, yet I cannot see in  
it a solution."

"In my opinion the Decalogue is as  
good a labor platform as any. In re-  
ligion we find the highest form of solu-  
tion yet offered. Next to religion comes  
constructive evolution—that evolution  
which believes in the potency of effort.  
The economic man is growing into the  
co-ordinating man. We are to have a new  
law of wages grown out of religious  
thought."

"The old struggle was for existence,  
the new struggle is for a wider spiritual  
margin. The application of this re-  
ligious idea is the true solution of the  
labor problem. The whole question must  
be placed on an altruistic basis. A new  
political remedy will grow out of this  
struggle. It will look largely to the  
care and comfort of man. The new re-  
ligion is one of progress, and one of its  
results will be the alliance of ethics  
and economy. Religion forecasts the  
social destiny of man."

### DR. EDWARD KOCH Will Be Here Tomorrow.

This Is a Picture of Dr. Edward Koch  
and His Great Invention, the  
Koch Inhalation.

This Is a Picture of Dr. Edward Koch  
and His Great Invention, the  
Koch Inhalation.

Dr. Koch Is Visiting His Ameri-  
can Offices.

HE CAN BE CONSULTED FREE

Dr. Koch expresses himself as well pleased  
with the various offices of the German-Ameri-  
can Company.  
He is calling on the principal English and  
German newspapers and is receiving a cordial  
welcome. Many physicians of note have called  
on the great German inventor to see the new  
improvements in his wonderful invention, the  
Koch Inhalation. It is a portable, self-act-  
ing, and which no one can use but the Koch Lung  
Cure, at 730 11th St. n.w., Washington.

This remarkable invention has been applied to  
all sorts of ailments, such as asthma, hay fever,  
catarrh and bronchitis.  
In his lecture Dr. Koch frankly admits that  
many patients suffering from consumption are  
really suffering from catarrhal bronchitis,  
a cold on the chest, that goes down on the  
lungs and becomes chronic only from neglect  
to the seat of the disease. No other process  
will vaporize this heavy mixture so it can be  
breathed into the air pipes to heat up the dis-  
eased lung tissue.

Dr. Koch is known throughout the whole  
world as the inventor of the Koch Inhalation,  
which cures consumption, asthma, hay fever,  
catarrh and bronchitis.

Which do not fill the stomach full of medicines,  
do more harm than good. All of the  
improvements have been applied to this  
new Koch apparatus. Patients are invited to  
call and investigate. Consultation, careful ex-  
amination and treatment are absolutely  
free at the Washington office, 730 11th St. n.w.

### LEGAL NOTICES.

SUPREME COURT OF THE DISTRICT OF CO-  
LUMBIA, HOLDING PROBATE COURT.  
No. 10092, Administration.

This is to give notice that the subscriber,  
of the District of Columbia, has obtained from  
the Probate Court of the District of Columbia  
letters testamentary on the estate of Catherine  
Connor, late of the District of Columbia, de-  
ceased. All persons having claims against the  
deceased are hereby warned to exhibit the  
same, with the vouchers therefor, legally au-  
thenticated, to the subscriber, on or before the  
10th day of September, A. D. 1902; otherwise  
they may be lawfully excluded from all benefit  
of said estate.

Given under my hand, this 10th day of Sep-  
tember, 1902.

(Seal.) JAMES CONNOR,  
Tolson Park.  
LEE B. MOSHER,  
Deputy Register of Wills for the District of  
Columbia, Clerk of the Probate Court.  
GEO. FRANCIS WILLIAMS, Attorney.

IN THE SUPREME COURT OF THE DISTRICT OF  
COLUMBIA, HOLDING PROBATE COURT.  
STEWART, JR., Trustee, vs. SALMA COOK,  
UNKNOWN HEIRS, ALIENES, AND  
DEVISEES OF EQUITY.

On motion of complainant, by Henry C.  
Stewart, Jr., and Nelson N. Richardson, his  
attorneys, it is the 3d day of July, A. D. 1902,  
ordered that the defendants, the unknown  
heirs, alienes, and devisees of Salma Cook,  
cause their appearance to be entered on or  
before the first rule day occurring three  
months from the first day of the publication of  
this order, otherwise they will be deemed to  
proceed with as in case of default. The object  
of this suit is to quiet title of complainant  
to the south part of a certain lot numbered 10  
in Wilber's subdivision of square numbered  
four hundred and forty-one, fronting twenty-  
four feet on North S Street and running back  
that depth sixty-five feet, in the city of  
Washington, District of Columbia, and to  
enjoin the defendants and each of them  
from setting up, claiming or asserting title  
thereto. This notice to be published in the  
"Washington Law Reporter" and The Wash-  
ington Times twice a month for three successive  
months before said rule day.

(Seal.) E. F. HINGHAM, Chief Justice.
